The second calendar control in the spring semester of 2023/2024 academic year.
Tuesday, 30 April 2024 06:11 -

The second calendar control of the spring semester for bachelor's and master's students of the 1st and 3rd year begins next Monday (06 May). It will last until 18.05 inclusive. We recommend that you check with all your lecturers about the requirements for obtaining a positive grade based on the results of the calendar control.

What do I need to get a positive result in the second calendar control? What happens if I have two unsatisfactory grades in a discipline based on the results of calendar control? Can the results of the calendar control be corrected? See the answers to these and other questions in the article.

Additional information:

- Current results for each discipline should be displayed in the appropriate module in the personal account of the AIS "KPI Electronic Campus". If the results are not available in the Electronic Campus
- write to us with the discipline, faculty/institute and department.

The certification will last from 06 May to 18 May 2024 in a mixed form.
